Below are dummy test credentials.

1) You can download our payment integration kit according to your technology from
below URL: https://github.com/easebuzz?tab=repositories

 Each kit has README.md file.

2) Kindly refer to our Quick-start guide: https://docs.easebuzz.in/api/quickstart for
languages like PHP, Python, Java, etc.

Kindly use **Initiate Payment API** documentation when passing parameters to a payment
gateway as parameters are expected in **a certain format only.**

https://docs.easebuzz.in/api/initiate-payment

Entire documentation is available on https://pay.easebuzz.in/documentation for reference.

3) Your Easebuzz payment gateway testing credentials

 are: Test Pay URL: testpay.easebuzz.in

 Key: 2PBP7IABZ2

 Salt: DAH88E3UWQ

Key and Salt given above is for **the test environment only.**

Note: In the case of PHP, Java, Python, .Net kits, kindly set **ENV='test'** for the test
environment. The test environment can be replaced with the production key and salt when
the live kit is received.

4) **Test card details** are as follows:

Name	Any Name
Card Number	5123456789012346
Expiry Date	07/2023
CVV	123

We have added an Iframe feature on our payment gateway.

You can download Iframe payment Integration kit from below URL:

https://docs.easebuzz.in/easecheckout

For demo purpose please use URL: https://pay.easebuzz.in/easecheckoutDemo
