- As marked in screenshot one….jab humm single services select karenge tab yaha pe services selected show ho jaayengi and uske baad continue ka button red hogaa otherwise continue faded rahegaa as shown in second screenshot. Or done in same as design.
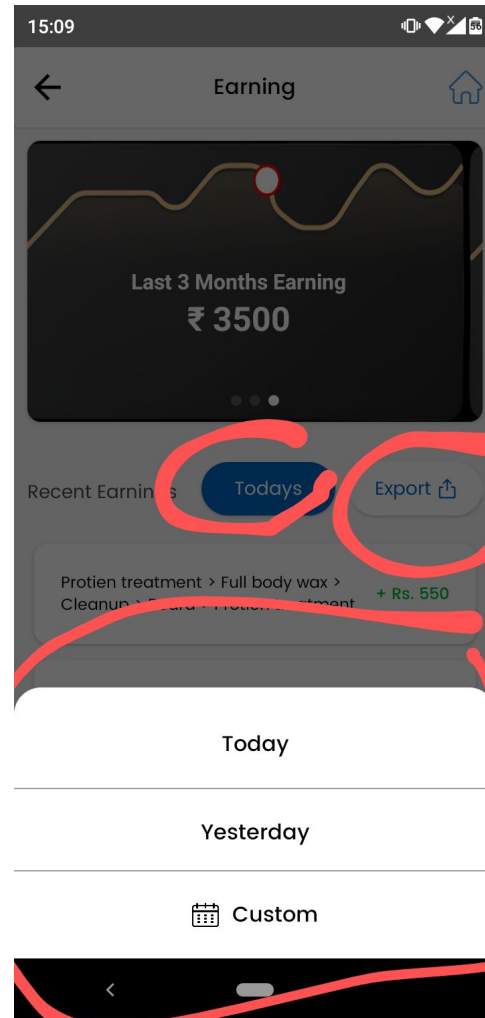

- Example services selected- (Haircut , Beard, facial **+1more**)

Issme humm three service selection ke baad **+ 1 more** ya **+2 more** and so on ka dikhaayenge.
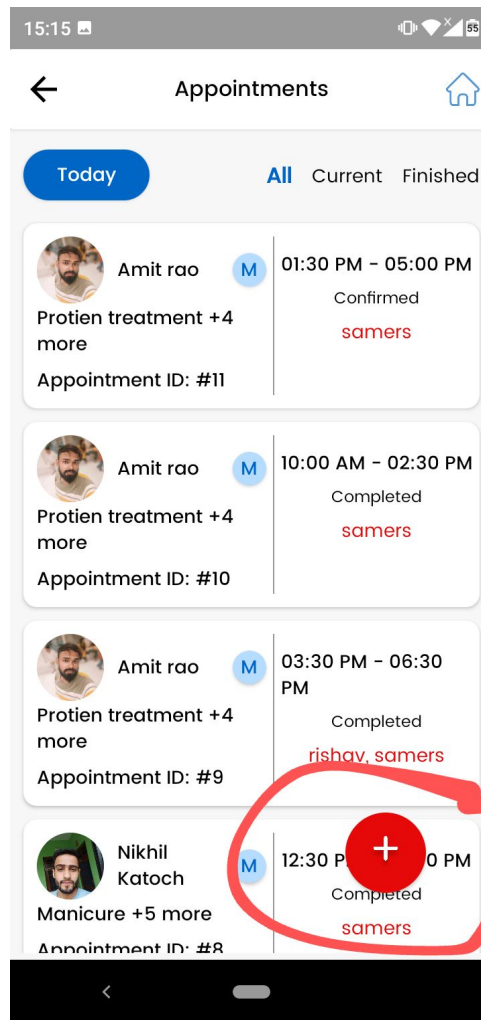

Vendor app - Recent Earnings

- **Marked the working Todays, Yesterday, custom.**

- **Export also- selected date earning file download working**

# VENDOR Appointment Creation – Plus button

Iss point ko discuss kar lenge kis tarah rahegaa karna hai ya nahi

- **Offers mein send notification and special for you**

- **Packages mein send notification**

Vendor register Now

Packages and Offers:

a) By default all the packages and offers created by vendor must be shown to their existing customers only.

b) Single services that are priceless will shown to both guest user or their existing customers.

c) That is to guests for a particular salon there is only single services priceless concept.

Vendor client working

a) When client got added by vendor then after adding a booking link of vendor will shared automatically to user whatsapp. Booking link sharing button in client management.

b) Client who got added but haven't taken booking yet vendor can also update their data. Then after updating again the booking link will again shared to them.

Who has <u>Access to packages and offers to a particular salon</u>

a)   Client who already has taken booking from a salon.

b)   Client who got added by salon in vendor app but haven't taken booking yet (id creation).   Jab Client management se booking link share hoga tab uss link mein user ko packages and offers ki access mil jaayegi (without logging at web) . **Share ka button bhi add kr dena client management mein.**

c)   Added Clients can also login (app or web) and can access packages and offers .

**d)**   NON CLIENTS KO OFFERS AND PACKAGES KI HEADING BHI NAHI DIKHAAI DEGI.

Client Management

Issme client details mein share button add kar dejiye for booking link sharing.

Approval system for Packages and Offers:

By default Packages and offers created by vendor must be shown to their existing customers only.

· Aur agar vendor kisi package ya offer ko sabhi ke liye dikhana chahye (i.e to all who are using prebook app) then vendor uss particular package and offer ki approval request daal ke uski visibility sabhi ke liye kar sakta hai. And admin usse approve karega .And its visibility to all depends upon time period selected by vendor or approved by admin.

· And this (APPROVAL SYSTEM) works for both Packages and Offers as shown in screenshot

· **<u>Pre appointment deposit -;</u>**

This is different for different salons. If Salons want to take the pre deposit before booking they can also take Or if they don't want they can also accept booking without pre deposit. (And this amount is redeemable after booking). Both the options will be given to the salon. It's up to them which one to choose.

Vendor appointment creation

a)   When appointment is created by vendor then all the appointment details will shared to user whatsapp along with link.
