Dear Merchant,

Thank you for using our payment gateway.!

1. You can download our payment integration kit according to your technology from below URL: https://github.com/easebuzz?tab=repositories

Each kit has README.md file

2. Kindly refer to our Quickstart guide: https://docs.easebuzz.in/ for languages like PHP, Python, Java etc.

Kindly use Initiate Payment API documentation when passing parameters to a payment gateway as parameters are expected in certain format only.

API Specs URL: https://docs.easebuzz.in/docs/payment-gateway/8ec545c331e6f-initiate-payment-api

Entire documentation is available on https://pay.easebuzz.in/documentation for reference.

3. Your Easebuzz payment gateway testing credentials are :

Test Pay URL	Key	Salt
testpay.easebuzz.in	2PBP7IABZ2	DAH88E3UWQ

Key and Salt given above is for test environment only.

Note :
In case of **PHP, Java, Python, .Net** kits, kindly set **ENV='test'** for test environment.

Test environment can be replaced with production key and salt when live kit is received. We will provide you the production key and salt once you have integrated with the test environment.

4. Test card details are as follows:

Name	Card Number	Expiry	CVV
Any Name	5123456789012346	07/2025	123

For any Query please drop a mail to pgsupport@easebuzz.in
